145.390 REPEATER

Will, wb5yfx, has gotten the 145.390 on the air again. It doing good.

FIELD DAY 2007

Field Day 2007 will be on the West side of Corsicana High School Tiger Field, West Highway 31, Corsicana, Texas

Talk-in will be 145.290 & 145.390

We will have bath rooms, water and lights. It has been over 12 years since we have been on the West side. The Sun is hot, as there is no shade on this side. I was new to amateur radio at the time, so I don't how they did then.

It would best if every one bring plenty of water and ice. The Home side, East side has been stripped and is no longer aviable.

Here are the general rules for Field Day:

1. 150 watts or less
2. Must stay with end each for at least 15 minutes
3. No same on the same band at the same time, ie no 2 phones on 80 meters, 1 phone, 1 code & or 1 digital is possible.
4. The name used for Field Day with Navarro Amateur Radio Club, Corsicana, Texas. The ARRL does not recognize NFL Amateur Radio club.

At this time I do not know what the food committee has in store. I probably will have a brisket.

We will probably will have to take donations for gas for generator.

Field Day is June 23 & 24. Set up is 8:30AM to 1PM. Contest starts at 1PM.

Any bringing equipment should check out BEFORE FIELD DAY not at Field Day.

CLUB

Regular club meeting is June 7 at Gander Mountain Lodge Room at 7PM. Club members and vistors or welcomed.

Club dues are due, \$35.00 .

Contact n5vo for any information or telephones of Pres Doug or any club officer.
