

2013-03-02

Ok guys and gals I'm out of town til sat afternoon.  
havent heard anything about red cross drill maybe it didn't come around.  
maybe if some of you want to operate a radio we will just do it  
Saturday evening or Sunday.

But I want to let y'all know that brand new ham kf5tph Alan has just  
gotten 2 new antennas. He doesn't know what to do with them yet. He  
has a spot planned out he just needs a hand. I volunteered anybody  
that is willing to help for Saturday afternoon. maybe sunday as a  
backup.

I'll be back around 4pm. I have his 2 new antennas and handhelds with  
me. He is ready whenever we are. So whoever is around we can head  
over to see him about that time and mount his jpole on a 20' pole and  
run a little coax. He has a pretty cool house. You might all want to  
see it. It is tornado proof! and its mostly underground! I haven't  
seen it but I can't wait to check it out.

Get on the radio before 4p if your around. and we will figure who  
wishes to follow and who wished to lead the way.

also he just joined the club. kf5tph alan, that is, joined. welcome  
alan! and so did long time ham and long time friend of the club - bob  
w5uot of Corsicana. maybe you heard him on the net! more on that in  
the newsletter.
